

CANCER PREVENTION & RESEARCH
INSTITUTE OF TEXAS

Elements of Successful Prevention Applications

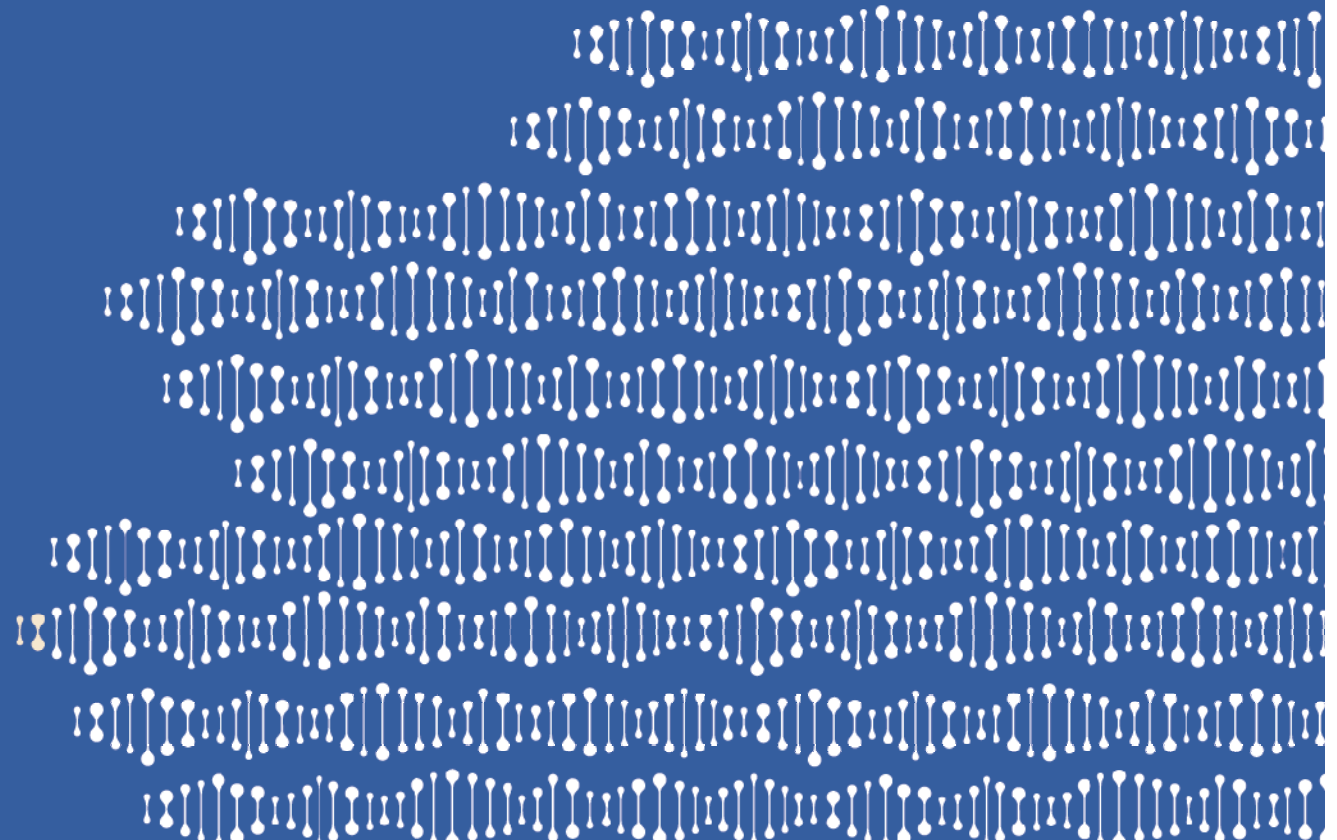

November 10, 2015

1:00-1:45 pm

Presented By:

Dr. Rebecca Garcia

Dr. Nancy Lee

CPRIT's Mission and Action

Mission

- Create and expedite innovation in cancer research into prevention and cures
- Attract, create, or expand research capabilities
- Create high-quality new jobs in Texas
- Develop and implement the Texas Cancer Plan

CANCER PREVENTION & RESEARCH
INSTITUTE OF TEXAS

Action

Award merit-based, peer reviewed grants to Texas-based entities and institutions for cancer-related research, product development and the delivery of cancer prevention programs and services.

Prevention Program Priorities

Principles

Fund evidence-based interventions and their dissemination

Support the continuum of primary, secondary and tertiary prevention interventions

CANCER PREVENTION & RESEARCH
INSTITUTE OF TEXAS

2015 Prevention Program Priorities

- Prioritize populations and geographic areas of greatest need, greatest potential for impact
- Focus on underserved populations
- Increase targeting of preventive efforts to areas where significant disparities in cancer incidence or mortality in the state exist

Areas of Emphasis

- **All** applications responsive to RFA are considered
- Areas of Emphasis highlight:
 - Geographic areas with higher incidence and mortality
 - Primary cancer prevention
 - sustainable behavior change & areas not well represented in portfolio (e.g., tobacco cessation, liver cancer prevention, skin cancer prevention)
 - Screening/early detection
 - population and geographic disparities
 - Survivorship and improved quality of life
 - measurable improvement

Grantee Progress Reports

To date awarded: 146 projects, \$142,189,920

Over 2.6 Million services

>19,000 prevention vaccinations

>620,000 screenings/diagnostics

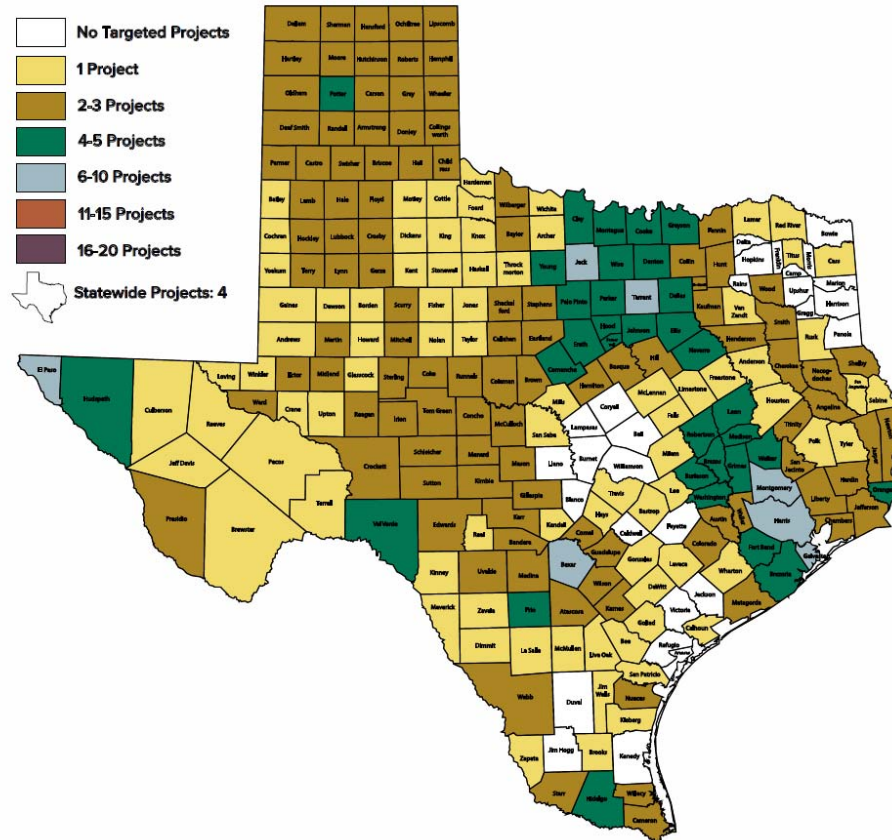

>3,700 precursors; >2,000 cancers detected

>11,000 survivor care services

Geographic Coverage Current Portfolio – 50 Projects

COUNTIES SERVED BY CPRIT PREVENTION PROJECTS
50 ACTIVE PROJECTS - SEPT 2015

FY16 Cycle 2 RFAs

New: Evidence-Based Cancer Prevention Services-See, Test & Treat[®] Program

Up to \$25,000 in direct costs for up to 12 months

Dissemination of CPRIT-Funded Cancer Control Interventions

Up to \$300,000 in direct costs for up to 24 months

Cancer Prevention Promotion and Navigation to Clinical Services

Up to \$400,000 in direct costs for up to 36 months

Evidence-Based Cancer Prevention Services Colorectal Cancer Prevention Coalition

Funding not capped for up to 36 months

Evidence-Based Cancer Prevention Services

Up to \$1.5 million in direct costs for up to 36 months

Competitive Continuation/Expansion for Evidence-Based Prevention Services

Up to \$1.5 million in direct costs for up to 36 months

FY16 Prevention Cycle 2

Release	Sept 24, 2015
Submit	March 3, 2016
Award	August, 2016
Contract start date	August 31, 2016

Prevention Review Council

Steve W. Wyatt, DMD, MPH Prevention Review Council Chair,
Associate Director, Center for Clinical and Translational Science,
University of Kentucky MC/CCTS

Nancy C. Lee, MD, Director, Office on Women's Health at HHS

Ross Brownson, DrPH, MP, Professor, Brown School and the Alvin
J. Siteman Cancer Center, Washington University

Peer Review Evaluation Criteria

- Impact and Innovation
- Project Strategy and Feasibility
- Outcomes Evaluation
- Organizational Qualifications and Capabilities
- *New:* Integration and Capacity Building

Pitfalls and Pearls

- Explain and reference the evidence base
- Fully develop evaluation plan
- Specify meaningful, measurable (eg, SMART) objectives
- For continuation/expansion applications, restate the project; don't assume reviewers know or remember
- Tout your successes, capabilities, staff
- Explain how you ensure access to treatment
- Describe system improvements, plans for integration & capacity building

Programmatic Review Considerations

- Potential for Public Health Impact and Return on Investment (ROI)
- Geographic distribution
- Cancer type
- Type of program in CPRIT portfolio

Applying for a CPRIT Prevention Grant

- Go to <https://cpritgrants.org/> to view current RFAs
- Go to <https://cpritgrants.org/> to submit an application
- Application deadline: **January 7, 2015**
